

1 MAY 1978

MEMORANDUM FOR: Deputy Director for Operations

FROM: Director of Central Intelligence

SUBJECT: Meeting with Under Secretary of the Army
Walter LaBerge, 28 April 1978

1. On the 28th, with Sayre Stevens present, I had a meeting with the Under Secretary of the Army, Mr. Walter LaBerge. He indicated he had a strong desire in finding out if Army intelligence activities were efficient, whether they were redundant and duplicative of CIA and others, and whether they were conducting themselves in a legal manner. I asked that he look at the charts we had prepared on the total national HUMINT activity for the 27 October conference at the Agency. I said I thought this indicated a lot of Army/Air Force HUMINT activity, but it was difficult to understand whether it was the presentation that left one unclear or whether there in fact were some problems with Army/Air Force HUMINT. The Under Secretary seemed most receptive to looking into this and working together to see what we could do to insure close dovetailing of Army and CIA HUMINT activities.
